[Home](#) > Huge recall affects inpatient hospital pharmacies

Generic Name:

Multiple drug products

Trade Name:

no trade name

Company:

Aidapak Services

Notes:

Hundreds of drug products repackaged for hospital inpatients by [Aidapak Services](#) have been recalled because of the possibility of contamination of nonpenicillin products with beta-lactam antibiotics, [FDA](#) said. A [317-page PDF](#) lists the affected products and lots. These include all repackaged products from this company.

Patients with hypersensitivities to penicillins or cephalosporins are at risk of reactions if exposed to cross-contaminated products.
