[Home](#) > American Regent recalls two injectable products

Generic Name:

Concentrated sodium chloride injection, methyldopate injection

Trade Name:

No trade names

Company:

American Regent

Notes:

American Regent is conducting a voluntary nationwide recall of [concentrated sodium chloride injection](#), 23.4%, 30 mL Single Dose Vial, Lot #0362, Expiration Date May 2012, NDC #0517-2930-25, and of [methyldopate injection](#), 250 mg/5 mL (50 mg/mL), 5 mL single dose vial, Lot #0152, Expiration Date March 2012, NDC #0517-8905-10. These recalls were initiated because some of the vials in these lots contain visible particulates. For the methyldopate injection, some of the vials of this lot contained translucent visible particles consistent with glass delamination. The glass particles (flakes) ranged in size from <50 microns to 200 microns. Both products were distributed to wholesalers and distributors nationwide.
