[Home](#) > Burn potential prompts recall

Generic Name:

Calcium oxide

Trade Name:

Nature Relief Instant Wart and Mole Remover

Company:

Nature Relief

Notes:

Nature Relief has initiated a voluntary [recall](#) of this wart and mole remover kit because use may result in harmful burns to the skin. The active ingredient, calcium oxide, can cause burns to the skin, and FDA has received a report of burns to the skin after use of the product that required medical attention. Only a small quantity of this product was sold via direct to consumer Internet marketing; patients inquiring about this product should be informed of the recall and told to place any unused product in a plastic bag for safe disposal.
